Roll Forming Machines

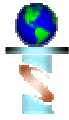

We manufacture Cold Roll Forming Machines for Making following False Ceiling Sections (Gypsum Board), Metal Ceiling Sections, P.O.P. Ceiling Sections, Pre Feb Sections, Partition Sections.

- Most up to date yet simplest design and robust construction ensures precise performance, easy operation and higher productivity.
- These machines are available with 'manual' as well as 'automatic control' panel. The cutting of the section after forming can be done by "Manual" or "Hydraulic Shearing".

Specification :

ROLL FORMING MACHINES FOR MAKING FALSE CEILING SECTIONS (Gypsum Board)	
CODE NO.	DESCRIPTION
SIRF-010	Ceiling Section Making Roll Forming
SIRF-020	Perimeter Making Roll Forming
SIRF-030	Intermediate Section Making Roll Forming
SIRF-040	Angle Section Making Roll Forming
These machines are also available in "2 in 1" & "3 in 1" Cold Roll Forming process on special request.	

Simran Tools International

ROLL FORMING MACHINES FOR MAKING METAL CEILING SECTIONS	
CODE NO.	DESCRIPTION
SIRF-110	84C (colour coated) Making Roll Forming
SIRF-120	84R (colour coated) Making Roll Forming
SIRF-130	150F (colour coated) Making Roll Forming

**These machines are also available in
"2 in 1" & "3 in 1" Cold Roll Forming process on special request.**

ROLL FORMING MACHINES FOR MAKING P.O.P. CEILING SECTIONS	
CODE NO.	DESCRIPTION
SIRF-170	Main Section Making Roll Forming
SIRF-180	Cross Section Making Roll Forming
SIRF-190	Angle Section Making Roll Forming

**These machines are also available in
"2 in 1" & "3 in 1" Cold Roll Forming process on special request.**

ROLL FORMING MACHINES FOR MAKING PRE FEB SECTIONS	
CODE NO.	DESCRIPTION
SIRF-240	H-Profile Section Making Roll Forming
SIRF-250	W-Profile Section Making Roll Forming

ROLL FORMING MACHINES FOR MAKING PARTITION SECTIONS	
CODE NO.	DESCRIPTION
SIRF-290	Stud Section Making Roll Forming
SIRF-300	Floor Section Making Roll Forming

All Specifications are subject to change towards modifications and improvements without any prior notice.
